

About Us

We are a network of the leading medical negligence lawyers in the UK.

Our sole aim is to ensure that a victim of a medical accident obtains a thorough explanation as to what has gone wrong; where negligence is the cause of an injury.

We believe that person should obtain the maximum amount of compensation that they rightly deserve.

Specialist Lawyers

In order to reach the goal of maximum compensation with no deductions, it is necessary to have the advice of a Lawyer who has the experience, knowledge and determination to succeed in your claim.

Our Lawyers are carefully chosen by us to ensure that they match our criteria:

- They must be proven experts;
- They must have been accredited by the Law Society or AvMA
- They must have considerable experience in dealing with (and settling) Medical Negligence Claims

“We believe a person should receive the maximum amount of compensation that they rightly deserve”

- They must share our passion for victims' rights
- They must subscribe to our ethical policy

If they don't meet our criteria, then they do not go on our panel.

Expert Knowledge

In order to be a good Medical Negligence Lawyer, you need to know how Litigation works, and that is probably it. To be an excellent Medical Negligence Lawyer, you need much more

In order to be a good Medical Negligence Lawyer, you need to know how Litigation works. And that is probably it.

To be an excellent Medical Negligence Lawyer, you need much more. Our Lawyers are excellent Lawyers (don't just believe us, they are recognised by independent guides as being the best) because of their dedication to the victims of medical accidents. This determination has ensured that they have developed, over many years, an excellent knowledge of medicine and law and how the two interact.

If you have a claim, they are the people to ensure it succeeds.
